Training programme for adult educators

The STEPUP2ICT training programme for adult educators has now been tested by adult educators in each partners countries. The training programme enhances educators' capabilities and proficiency in using e-resources in adult education in 6 main areas of adult education:

1. Coordination of training
2. Training needs assessment
3. Training content design
4. Training development
5. Training delivery
6. Training evaluation

The training course is freely available online at https://stepup2ict.eu/course in all partners languages.

The course consists of training material, readings, activities, exercises, external links and tests on the use of ICT in different phases of adult education courses.
At the end of each training module you can gain a digital badge! Come and join us quickly!

Partner

Multiplier events

All partners held final workshops and events in their countries to transfer the STEPUP2ICT results to interested parties. Adult education centres, educators and trainers at local, regional and national level were invited.
Overall, 200 people have participated in the events and have given positive feedback on all project results.

Partner

The Community Platform

The community platform, an online environment to share learning knowledge, materials, experience and tools is available. The platform is a reference point for adult educators interested in implementing ICT tools in their daily activities, and in exchanging practices in using digital media and learning technologies in adult learning. The community can be found on the project website at: http://www.stepup2ict.eu/community/
Come and visit!

For more information about the project and the activities carried out, visit the project web site and FB page at following links:
