

STEPUP 2ICT

High quality education and training are important to promote smart, sustainable and inclusive growth. Adult education can make a significant contribution to achieving this goal.

The StepUp2ICT project creates a handbook and online training for (adult) educators focussing on the effective and efficient use of ICT tools in different phases of the training/teaching process:

- Coordination and planning of the training
- Detecting and analysing the needs of learners
- Developing a course or training
- Creating content
- Delivering the course or training
- Assessing learning outcomes and evaluating the training

The outcomes of the project are available in the public domain under a Creative Commons Licence
